WHAT IS MINERAL MAKE UP ?

Mineral Make Up is formulated from elements derived from the earth's minerals, which have been in existence for millions of years. It is a silk like powder that contains a combination of ingredients.

WHAT TYPE IS USED AT BEAUTYWELL® SALONS

ID BareMinerals makeup is about being true to your i.d.entity.

Bare Escentuals started the revolution in mineral makeup with the introduction of their 100% pure BareMinerals.

All foundations, cheek and eye colours have been crushed to a silky, creamy powder form...but its NOT a powder. These are 100% pure BareMinerals that are free of preservatives, talc, oil, fragrance and other harmful chemicals. The formula provides impeccable coverage for every skin type and skin tone, and protects with natural sunscreen. With the exception of Mineral Veil, all our loose products such as foundation, blush, eyeshadows, glimmers, glimpses and liner shadows, are BareMinerals.

But BareMinerals are just the beginning. Our id makeup line also offers complete colour cosmetics and treatments designed to enhance your natural beauty, such as lipsticks, lip liners, lip glosses, mascaras, skin preps, flawless application brushes and more. All ages and skin types can benefit from 100% bare minerals – especially those concerned with skin sensitivities, allergies, scars, blemishes, rosacea, wrinkles and pigmentation.

ID Bare Escentuals is the ideal range to create the perfect classic, bridal, fashion or natural look. Go bright and vivid, soft, shiny, opaque or sheer with wearable lipsticks, gloss and liners. Add Clear Radiance all over for a soft dewy look or Clear Warmth for an all over warm glow. Finally, add shellac, tar and lacquer-free mascara for defined and sensational lashes.

Mineral Make Up – Make up so good you can sleep in it.
