

The **TRUE** Anti Ageing Protector.

For under **50c per day**

Lasts over
2 months*

protect your skin from
premature anti ageing.

Prevention is the Ultimate Cure

Drawing on our expertise in the area of skin ageing, BeautyWell® offers revolutionary products that promise to protect the skin against the ravages of Australia's harsh environment to prevent skin ageing.

In response from leading clinicians, therapists and doctors who have demanded an all-in-one moisturiser, sun protector and anti-ageing product, True Total Age Protector SPF 30+ offers clinical-strength protection against the Australian climate.

Australia has the highest rate of skin cancer in the world, with an alarming 1300 deaths attributed to it every year.

Developed using the latest sun protection technologies, True Total Age Protector SPF 30+ combines total daily moisturisation with superior sunscreen and anti-ageing properties to protect the skin against the environmental aggressors that cause premature skin ageing.

Enriched with the potent antioxidant, Vitamin E, the True Total Age Protector acts to stimulate the skin's natural defences, as well as offering a powerful sunscreen formulation to shield the skin against damaging UVA I, UVA II and UVB rays.

These revolutionary products are also luxurious daily moisturisers that can be used on the face, neck, hands and body, and are available in tinted and untinted formulations.

SUNFACTS

Australia has the highest rate of skin cancer in the world, with around 374,000 Australians treated each year for a non-melanoma (non-life-threatening) skin cancer. Worryingly, of the 8,800 people diagnosed with melanoma each year, over 1,300 will die from melanoma or non-melanoma skin cancers each year.

THE CANCER COUNCIL OF AUSTRALIA recommends you use all of the following sun protection measures:

- Stay in the shade, especially between 10am and 3pm, when UV radiation is at its strongest
- Wear sun protective clothing.
- Use a broad spectrum SPF 30+ sunscreen on exposed skin and reapply every two hours.
- Wear close-fitting sunglasses to protect against eye damage.
- Protect your face but don't forget the rest of your body.

The most common sites for the deadliest form of skin cancer, melanoma, are the lower legs for women and the upper back for men.

TRUE ALL DAY MOISTURE SPF 30+ TINTED 100mL

A daily moisturising cream combined with broad-spectrum protection, True All Day Moisture SPF 30+ tinted, guards against sun and environmental damage, nourishes your precious complexion and leaves it slightly tinted. Wear alone or under makeup and let the inbuilt sunscreen agents protect chapped and wind-burned skin from the elements. Recommended for the face, neck, hands and body

TRUE ALL DAY MOISTURE SPF 30+ UNTINTED 100mL

True All Day Moisture SPF30+ untinted is a daily protector and moisturising cream. It helps protect against environmental skin ageing influences, whilst moisturising the skin. It combines sunscreen agents in a special base which soothes and helps protect chapped and wind burned skin from the elements. Recommended for the face, neck, hands and body.

TRUE TOTAL AGE PROTECTOR SPF 30+ UNTINTED 100g

A daily moisturising cream combined with broad-spectrum protection, True Total Age Protector SPF30+ untinted, guards against sun and environmental damage and nourishes your precious complexion. Invisible after application, the inbuilt sunscreen agents also protect chapped and wind-burned skin from the elements. Recommended for the face, neck, hands and body.
